Several business men are interested with Mr. Isenberg in the project.

## BATTELLE TEST IS ENCOURAGING

A report on the Battelle process experiments at Ewa plantation has just been made by Charles F. Eckart, director of the planters' experiment station, to the committee on manufactures of the association. Elmer E. Paxton, a member of the committee, said this morning that it would be premature to have the report published at this stage.

"It is only a preliminary report," Mr. Paxton observed, "as the experiments have not been exhaustive. The experimental plant for testing the process has only had a run of about two months, and the director would hardly like to have the incomplete findings published."

"The report is very encouraging but not conclusive," said Mr. Paxton. Asked if it was encouraging on all points, Mr. Paxton replied in effect that it was too soon to say whether or not. It will be remembered that there are two phases of the process—one relating to extraction and the other to the turning out of white sugar.

"Yes, the experiments will be continued with the grinding of the new crop," Mr. Paxton responded to another question.

### RAW SUGAR HOLDERS ARE ASKING 4.30.

Following the cablegram printed in yesterday's issue, Alexander & Baldwin, Ltd., received this additional one from New York:

"Texan arrived yesterday, basis 4.30, being last half of the Virginian's cargo. Holders of raws are asking 4.36. Refiners are bidding 12 cents less than holders are asking."

Anyway, a rolling stone is a smooth proposition.
